EVENT SIGNS

Events are more memorable when you can participate! Print out any or all of these signs and play along with us during the event. Just print, cut out, fold in half (so the front lines up with the back) and glue or tape a craft stick to the back.

The instructions on the back side will help you know how to use them. Some of these signs are Neuro Tools that you might see Deb use during the event. And some are just for fun!

This STOP sign is a Pattern Interrupt Neuro Tool

Use this tool when you find yourself caught up in negative thoughts, memories and patterns that trigger fear.

1. Pull the STOP sign up to your face and yell STOP.
2. Repeat over and over – more intensity with each repetition.
3. Keep going until your mind has broken the negative pattern.
4. Follow with a Pivot and Anchor Neuro Tool.
